## What will you do with your extra time?

With *Simplify My Meds*, you can reduce your stress and save time by filling all of your prescriptions, vitamins and supplements on the same day every month. No more multiple trips to the pharmacy! We will make sure ALL of your prescriptions are ready on the same day every month. We'll even deliver them to your home!

We will take care of contacting your physician, transferring your prescriptions and making sure you never run out of your medications again!

Wouldn't you rather be enjoying what you like to do instead of driving back and forth to the pharmacy?

## How does the Simplify My Meds Program Work?

One week before your scheduled pick up or delivery, a pharmacy technician will call you. We will have a monthly consultation where we see how you are feeling, review your prescriptions, vitamins and supplements as well as looking for ways to SAVE you money on your medications.

Our technician will review your order before filling and call your physician if you need a refill. Your order will be ready for pick up or delivery on the day that you choose.

"I take 15 prescriptions a day plus my vitamins. There are times when I can't remember if I took what I was supposed to take. Plus, I was making 10 trips to the pharmacy every month. Simplify My Meds has changed my life. Now, I only have one visit a month and I never worry about mixing up my medications"

## What if I am not a patient of this pharmacy?

Not a problem! Simply call Beacon Prescriptions or bring in your prescriptions and we will take care of transferring everything to our Simplify My Meds program.

*Reduce stress, have more time to do what you enjoy!*

All with the Simplify My Meds program.
